Tailwind

CSS

Android

## PROJECTS

### DrivePilot (08/2020 - 12/2021)

- Maintained and added more features to the backend of the application which was written in Django.
- Migrated the mobile application from Cordova to React Native.
- Implemented important features to make sure that the driving instructors are able to book and keep in touch with the students.

### Interview platform (Bachelor Project) (03/2021 - 12/2021)

- Created a web application using NextJS.
- Implemented features to automate the process of interviewing and hiring a candidate for a position.
- Developed the project in collaboration with VIA University College and Stibo Accelerator.

### Stibo MeetUp (09/2021 - 01/2022)

- Created an Interactive Video platform for Stibo Accelerator for the branding of the company.
- Participated in the creation of the video.
- Gave the possibility for those who watched and interacted with the video to send their answers and select a position in the Stibo company which they want to apply for.
